

Our clients consider having access to our team as having their own design and marketing department... without the headaches of in-house staff. By using our services, our clients save in overall overhead and employee costs, gain control of their brand communications, produce powerful creative and, best of all, get on-time and personalized service.

Fuzio Universal Bistro

“Very understanding of restaurant industry needs, concepts, and our lingo! Quick response time! Our business is always on the go and so many projects have short time lines. They haven't missed one yet!

Running a successful business means managing tight budgets! Kulture Konnect has understood this over the years and has made managing my marketing budget simple...

Definite value in design work!

Thomas Lopes, General Manager of Modesto Location

CHALLENGE

Create a website design that can be used for two separate restaurants locations. Rebrand the site to a cleaner and brighter design. After an oversaturated color palette, we needed to create a sleeker, more modern look and feel.

SOLUTION

The website design shown here was the ideal solution to lighten up the brand. It is organized in a way that viewers can easily navigate to the location that they are closest to and download menus and see specials that are available. The big slideshow that is shown throughout the pages help to showcase what Fuzio is known for... great food!
